

Course:
Websites Development Using HTML and CSS

TOPIC: FORMS. POSITIONING

Task 1

Create a registration form on a website with the following fields:

Obligatory:

- name;
- surname;
- age;
- e-mail;
- password.

Optional:

- country;
- city;
- occupation.

Task 2

Change positioning of forms from the previous task to 50px to the right and 10px to the bottom relative to the previous form. Use block layout.
